A MESSAGE FROM THE TEAM

Just like a lot of people in this turbulent time, Deapp has had to make changes too, to ensure Deapp stays available to use for the whole diabetes community.

If you don't know, Deapp was initially set up as a research pilot and surpassed our expectations for what the project would become.

We have a huge community of hospitals across the UK and it was only possible to keep Deapp going by creating a new not-for-profit entity to give it a sustainable home.

HEAL.med CIC is a social enterprise and has been keeping Deapp going in the background during COVID and working hard to improve the app, ready for a new launch of content, resources and books!

Goodie Bags for Leicester Patients

The Leicester Royal Infirmary, Children's Diabetes Team has just received a huge donation of goodie bags, designed and assembled by the Deapp team.

50 goodie bags containing a cool bag, comics, a handbook, an activity book, a mini "sharps" box, plus an Olly plushie toy... and lots more.

This will allow every newly diagnosed patient to get a free goodie bag for a year! It was made possible by a generous donor.

AWARD-WINNING TEAM

HEAL.med CIC walked away as Digital Business of the Year at the Niche Business Awards 2022!

Jenny Cross, CEO of Cross Productions, which organised the event, gave a heartwarming opening speech. She said: "It feels so good to see everyone come together to celebrate success this evening, face to face!"

"Sometimes it takes the most abrasive of reminders, the harshest of times to help us recapture that perspective to lift it up and show us what we previously failed to see."

"We have a community who, as a whole, we always stand strong. When the odds are against us - the first city to have a local lockdown - it's hard to look around and find a reason, to understand, and comprehend why. If we look hard enough, immersed in the uncertainty, the disruption, and in some cases tragedy, there is usually something to be gained."

Winner

NEW RESOURCES AND CONTENT

DEAPP THINKING

Our brand new activity book 'Deapp Thinking' is an amazing resource developed with NHS psychologists that gets activities, games, and exercises into the hands of patients, families, and healthcare professionals.

Inside the book, you will find emotional wellbeing exercises such as 'Balloon Breathing' and instruction to make a 'Mindfulness Jar'. Intricate coloring in pages, plus tricky mazes and word searches can keep you engaged for hours.

This project was funded as part of a Masonic Charitable Foundation Grant.

NEW RESOURCES AND CONTENT

EMOTIONAL WELLBEING

A brand new session has been created by the Deapp team, containing 6 videos covering the Emotional Wellbeing of patients and their families.

We have worked hard over the last year with a sub-group of NHS Psychologists across the country to develop the contents for the session.

The session is now live on the Deapp app!

This project was funded as part of a Masonic Charitable Foundation Grant.

DEAPP DEVELOPMENTS COMING IN 2022

A big update is coming to Deapp in April 2022.

Improved App Interface

Deapp is getting an overhaul to improve many quality-of-life features for Healthcare Professionals and their patients.

Including:

- Improved user interface.
- Deapp ID's to replace PZ codes.
- Greater statistics feedback.
- More features in Instructor Mode.

New Education Content

We are developing a Transition session for patients, covering alcohol, university, and other key lifestyle factors to consider.

More Languages

Deapp is being translated into more languages, starting with the most requested ones by the diabetes teams.

Monthly Webinars

Need support on resources? Want to learn more about the latest diabetes advancements? Or just want to have a discussion with the team? Our monthly webinars will cover a range of topics.

Deapp is in more Languages!

All of our videos have been translated into:

URDU

GUJARATI

HINDI

ARABIC

Making Deapp even more inclusive and accessible to the community is vital for families, where the patient or their parents, guardians, family members or friends struggle with their English skills which might prevent them from understanding the diagnosis effectively.

DEAPP LICENCES: WHAT YOU NEED TO KNOW.

From April 2022, hospitals that use Deapp will have the option of signing up for an annual licence.

A license will allow users to access the patient management backend including data and statistics, with the PZ code system phased out and being upgraded for a more effective and efficient method.

Licences will give hospitals more support, including free monthly webinars to refresh trained staff in new Deapp content & best practice tips and free regional face-to-face sessions.

You will also get exclusive discounts on all of our resources and every patient and Healthcare Professional that uses Deapp gets a printed handbook and the Deapp App download for free. The app will become £4.99 for all other users.

Deapp has shown to save hospitals up to £20,000 a year when used effectively.

Licences for Deapp will be £1,500 per year for a site. Hospitals can continue using Deapp Resources without a licence independently, however will not have access to our support and limited access to the app.

For new sites, our bespoke training packages gives hands-on training with Deapp resources, plus we show you the most effective methods of educating your patients.

A licence is always included in our training packages, as well as our fabulous Deapp Resource Box! Packages start from £3,495.

Costs Ex VAT if applicable

PURCHASING RESOURCES

We are upgrading our online store to include more Deapp resources.

This will include everything in the resource box and all consumable items that might need topping up.

Contact info@heal-med.co.uk for more information.
